SABIC® PPcompound 7510

Polypropylene

Saudi Basic Industries Corporation (SABIC)

Message:

SABIC® PPcompound 7510 is a mineral filled modified polypropylene. This material combines high flow, good impact and a high stiffness level with a low shrinkage and CLTE. This material has a very broad processing window and good esthical performance. Typical applications include automotive exterior parts such as large thin wall zero gap bumper designs but also lateral siding and bumper strips. It can be used in painted and unpainted applications with UV stabilization added on demand.
SABIC® PPcompound 7510 is a designated automotive grade.
