

# POLYCASA® Design

Acrylic

Polycasa

## Message:

CAST Design is an acrylic sheet with non-glare surfaces.

Due to its intrinsic properties, it is specially designed to intensify light dispersion, with its matt surfaces increasing the dispersion effect.

Using this material in displays will enhance the image with the result being very clear.

### CHARACTERISTICS

Wide variety of colours.

Tactile surface that doesn't stain, reduces finger marks and attracts less dust.

Softens harsh colours and diffuses light.

Easy to use, shape and maintain.

'Frosted look' is retained even after thermoforming, sawing and drilling.

Resistant to many chemical products.

### APPLICATIONS

With its many aesthetic advantages, CAST Design is perfect for manufacturers of visual communication material and interior design professionals.
