### Polyamide 66

Shinil Chemical Industry Co., Ltd.

#### Message:

SHINSTRA is our flagship product - provide improved modulus, impact resistance and heat resistance which are the weak points of plastic materials. Generally, SHINSTRA satisfy requirements by customizing (1) impact resistance, (2) scratch resistance, (3) abrasion, (4) chemical resistance, (5) processability and (6) heat resistance. In addition to the excellent products, we are offering total solution optimizing product designand customer's process lines through Computer Aided Engineering (CAE).

SHINSTRA can be produced with PC, HIPS, PE, PP, PA-6 and PA-6,6 in our proprietary dispersion technology and used in many applications such as exterior and interior auto parts, home appliance and construction materials.
