Polybutene-1 PB 4235-1 Ivory

Polybutylene

LyondellBasell Industries

Message:

General Information

Polybutene-1 grade PB 4235-1 ivory is a highly isotactic polyolefin manufactured from butene-1 monomer. The product provides excellent long term hydrostatic strength also at elevated temperatures combined with high flexibility.

PB 4235-1 complies with requirements specified in ISO 15826, ISO 12230, DIN 16968; DIN 16969 and many other National Standards for PB-1 pipe applications.

The grade is typically used for extrusion into pipe and injection moulding into fittings for non-potable heating water applications.

PB 4235-1 is available in ivory colour in pellet form..

PB 4235-1 is not being sold for pipe applications in North America.

The grade is not intended for medical or pharmaceutical applications.

| Features | High isotactic Homopolymer Weldable Good creep resistance | | | | |
