# HANWHA EVA 1159

### Ethylene Vinyl Acetate Copolymer

#### Hanwha Chemical

#### Message:

HANWHA EVA 1159 is manufactured by Dow autoclave high pressure process and designed for variety of extrusion coating application such as thermal film(Laminex film) and flexible film etc. EVA 1159 is well known for its excellent processability and high quality assurance.

| General Information                          |                                  |          |                 |
