TRIREX® 3026B(Q)

Polycarbonate

Samyang Corporation

Message:

TRIREX is the registered trademark of polycarbonate resin manufactured by Samyang Corporation. TRIREX polycarbonate resins offer superior mechanical properties, good dimensional stability and high electrical performance, which allows it to be widely used for electrical, electronic, appliance, automotive and optical industries. TRIREX 3026B(Q) is a polycarbonate resin grade which has high low temperature impact strength in combination with superior mechanical and physical property.

Characteristics:

Superior low temperature impact resistance

Good flow-ability

Workable under a wide range of temperatures (-100 °C \sim 135 °C)

High electrical performance

Good dimensional stability

Low moisture absorbency

Good weather resistance

Applications:

TRIREX 3026B(Q) resin grade is used for extrusion blow molding components. High viscosity. Transparent colors only.
