

# NEONIT® K600 Fe

Epoxy; Epoxide

SBHPP

## Message:

NEONIT® K600 Fe is an iron powder-reinforced high temperature epoxy moulding compound for applications demanding heat resistance and isotrope properties and high dimension stability at a large ranche of temperature is required as and industrial equipment.

Generic identification : NEOPREG K 600 Fe is an epoxy moulding compound containing 90% iron powder (according to ISO 11469: 2000)

General Information	
Filler / Reinforcement	Iron, 90% filler by weight
Features	Good dimensional stability
	Heat resistance, high
Uses	Industrial application
Agency Ratings	EC 1907/2006 (REACH)
Appearance	Dark gray
Forms	Powder
Processing Method	Compression molding
